ÖNSÖZ

INTRODUCTION

1994'de kurulan Cersan Asansör, yurt içinde ve dışında sıradışı asansör projelerini başarıyla hayata geçirmiştir. Çeyrek asırlık asansör deneyimini ve bilgisini As7Lift markası ile tasarladığı Makine Dairesiz, Makine Daireli, Hidrolik ve Monşarj asansör ürünleri ile sektörün hizmetine sunmaktadır. As7Lift markası ile üretilen asansör komponentleri ve komple paket asansörleri zor çıkışlarda yanınızda.

First established in 1994, Cersan Asansör (Elevator) put unique projects into practice both local and oversea markets. Cersan serves its experience and knowledge arising from the activities that exist almost quarter-century, together with the products designed by As7Lift brand including Machine Roomles, Machine Roomed, Hydraulic, and Dumbwaiter solutions. As7Lift is always here to help you out with high-end single components as well as Complete Elevator Sets produced in own facilities, even for the worse cases.

Hüseyin SAYGI | Yönetim Kurulu Üyesi, Fabrika Müdürü | Board Member, Factory Manager

ASANSÖR TASARIMLARI VE KOMPONENTLERİ ÜRETİMİ

MR, MRL, Hidrolik ve Monşarj asansör tasarımları
ve komponentleri üretimi.

DESIGNING OF ELEVATOR AND PRODUCTION OF SINGLE COMPONENTS

Designing of MR, MRL, Hydraulic, Dumbwaiter
Elevators and production of single components.

TASARIM VE ÜRETİM

DESIGN AND PRODUCTION

İhtiyacınız olan asansörleri tasarlarken; yapılarınızın donanımsal farklılıklarını ve sizin isteklerinizi gözetiriz. Yerin uygun özel çözümler ile yönetmeliklere uygun güvenli asansörler imal etmekteyiz.

Tedarikçilerimiz ve çözüm ortaklarımızla birlikte son teknoloji üretim yöntemlerini kullanırız.

Whenever a new project is subject to be designed, it is our aim to mainly focus on customer requests as well as paying regard to structural variations. We do produce elevators that best fits to hoistway and fully compatible with up to date regulations, especially safety rules.

We do cooperate with our suppliers & partners in order to get benefit of latest production technologies.

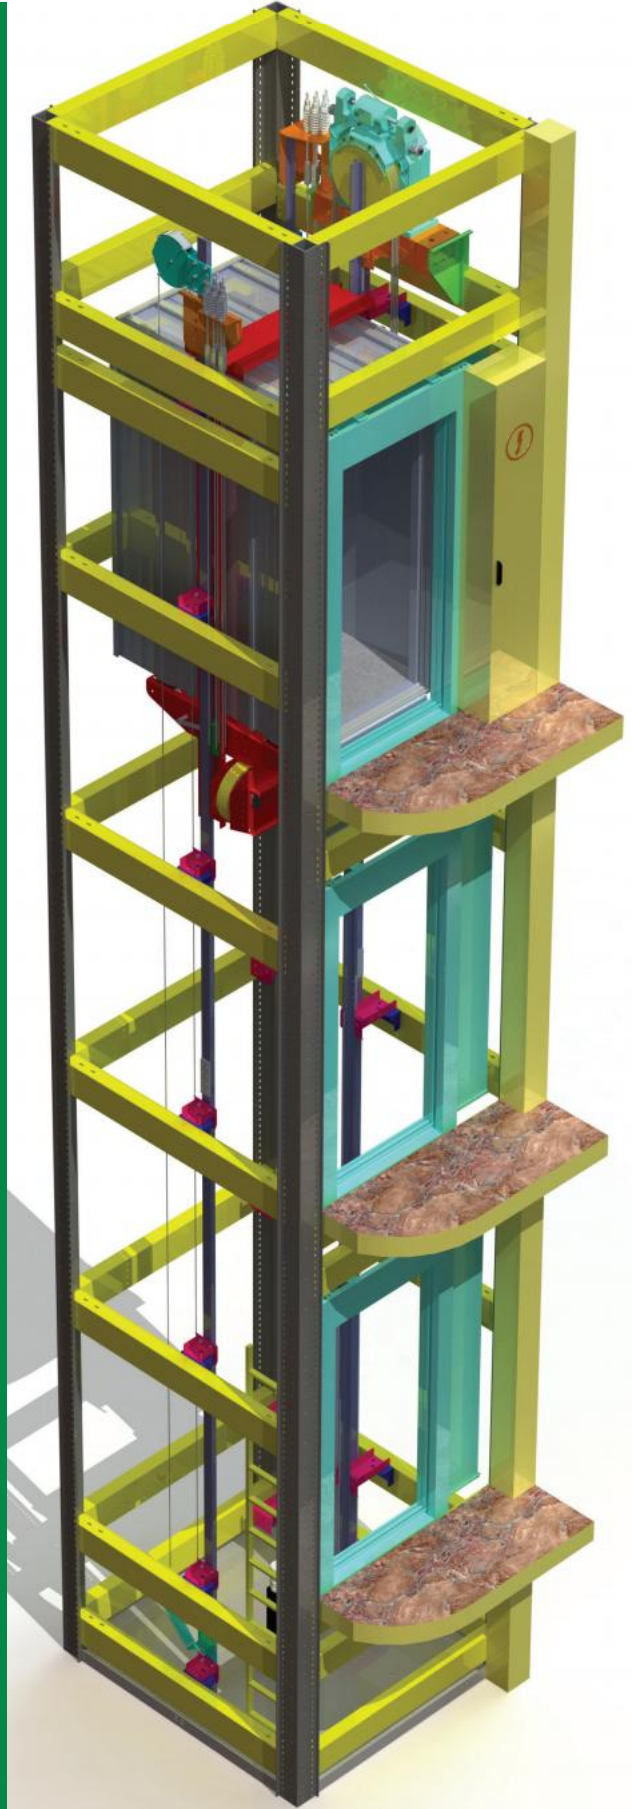

As7 Lift Tasarım Ekibi | As7Lift Design Team

As7Lift TAM UYUMLU PAKET ASANSÖR MALZEMELERİ

Asansör; tipine ve dizaynına bağlı olarak pek çok parçadan oluşmaktadır. Bizim için bu parçaların eksiksiz bir şekilde tamamlanması çok önemlidir ancak daha önemlisi bu parçaların birbiriyle olan uyumudur. Sorunsuz ve uzun ömürlü bir asansör için “uyum” çok önemli bir konudur.

As7Lift FULL COMPATIBLE COMPLETE ELEVATOR SETS

An elevator consist of many various components depending on the type and shape. What is more important for us than gathering these parts all in together ; is exactly the “harmony”. Harmony is crucial for any elevator that is expected to be durable and free of problems.

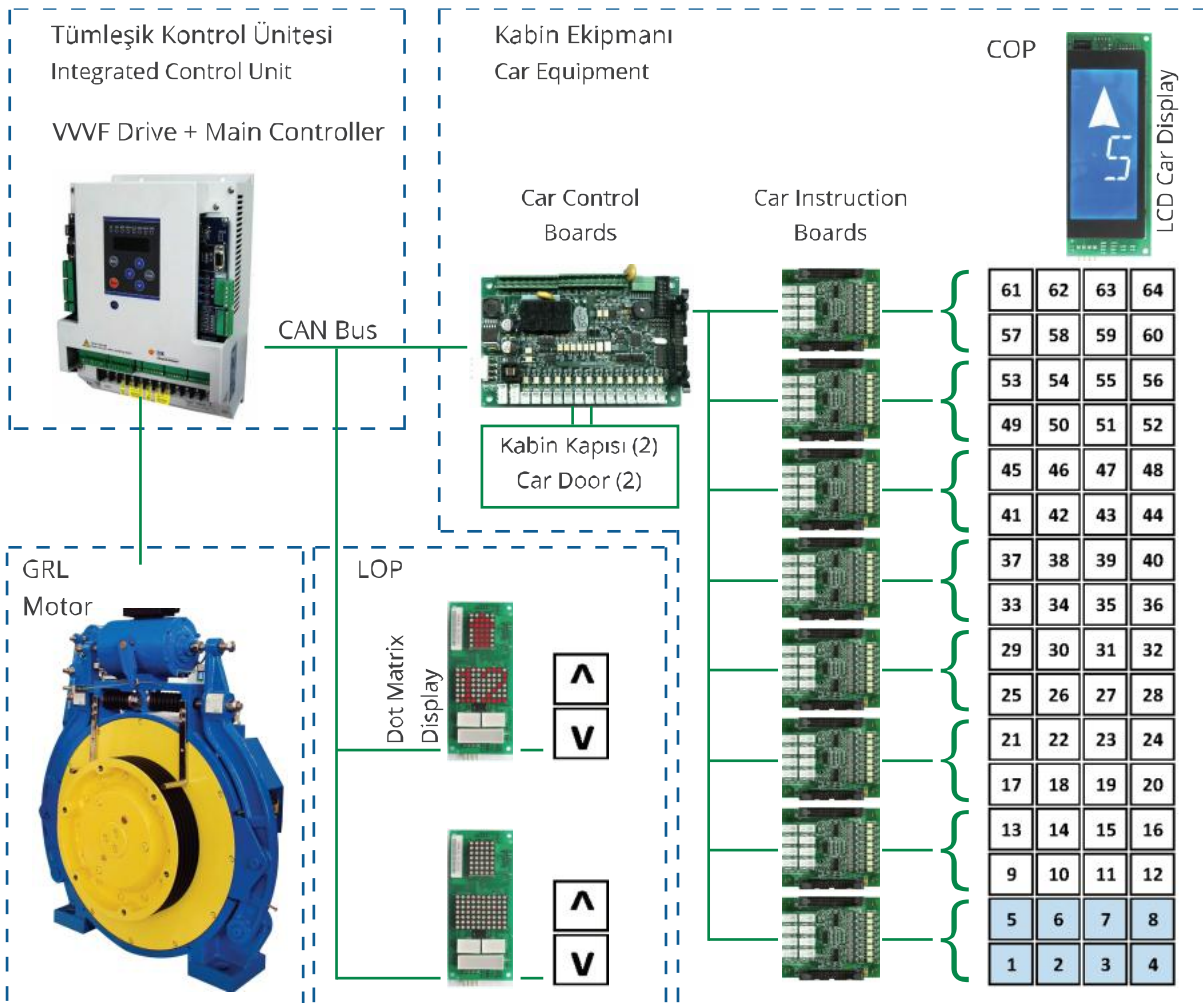

CAN BUS HABERLEŞMELİ TÜMLEŞİK ASANSÖR KONTROL PANOSU

- Modernizasyonlar veya yeni inşaatlar için uygundur
- 4,0m/s hıza kadar çalışır
- Senkron veya asenkron motorlar ile uyumludur
- Tek asansör, dubleks, tripleks veya 8'li guruba kadar uyumludur
- Tek yön veya çift yön toplama 64 durağa kadar çalışır

INTEGRATED ELEVATOR CONTROLLER WITH CAN BUS

- Suitable for modernization or new projects
- Ability to work up to 4,0 mt/sec speed
- Compatible with synchronous or asynchronous traction machines
- Compatible with simplex, duplex, triplex options up to total of 8 elevators
- Runs up to 64 stops (simplex or duplex)

İNSAN ASANSÖRLERİ

Buhar gücü ile çalışan ilk insan asansörlerinden bu yana asansörün tanımında "can güvenliği" en önemli kriter olmuştur. Günümüzde asansörler, yüksek katlı binalarda insanların ulaşımında en önemli araçlardan birisidir. Hızlı seyreden teknik gelişmelerin ışığında asansör yönetmelikleri de durmadan güncellenmektedir. As7Lift olarak avrupa birliği standartlarını esas alan insan asansörleri tasarlıyoruz ve üretiyoruz. Hızlı asansörler, grup kumanda vb. konulardaki tüm yenilikleri takip ediyoruz.

As7Lift

PASSENGER ELEVATORS

Since ever first passenger elevator in the history that was operated by steam power, "security of life" has always been the most important measure. In today's world, elevator is a vital equipment especially in high-rise buildings. In conjunction with fast moving technological improvements, regulations are also subject to change. So, As7Lift produces its goods complying with EU standards and strictly follows the innovations such as high speed elevators, group controller etc.

02 As7Lift PANORAMİK ASANSÖRLER

Panoramik asansörler binanızın ihtiyaçlarına ve prestijine uygun olacak şekilde tasarlanır. Asansör kabininin imalatında bina mimarisine ve yapı malzemelerine uygunluğu ve estetiği ön planda tutulur ama güvenlik ve sağlamlıktan asla ödün verilmez.

02 As7Lift PANORAMIC ELEVATORS

Any panoramic elevator is being designed in accordance with your building's passenger traffic while keeping the prestige at highest. The convenience of Elevator with subject building architecture as well as building materials used there, are the priorities of production ; and there is no room to compromise from safety and strength.

SEDYE ASANSÖRLERİ

Hastane ve polikliniklerdeki asansörlerin çalışma performansları hastaların tedavi süreçlerinde ciddi etkilere sahiptir. Sedye asansörlerinin tasarımı ve inşasında bunu sağlayabilecek seçimler yaparız. Asansör kabininin dizaynında insanı ön planda tutar devamlılığı sağlayacak şekilde hijyen ürünler kullanırız.

03 As7Lift HOSPITAL ELEVATORS

It is very substantial for any patient to be moved in comfortable elevators during their treatments in any hospital or clinic. This is why, we carefully make decisions regarding to design and installation those will result in perfect. The priority is comfort of the patient and of course the materials that will ensure continuous hygiene.

04 As7Lift YÜK ASANSÖRLERİ

MRL, MR veya Hidrolik olarak ürettiğimiz yük asansörleri ile çok yüksek kapasitelerde dahi konfor ve estetik beklentilerinizi bir arada sağlayabiliyoruz. Yüksek kapasitelerde 1/4 veya daha fazla plangalı veya hidrolik+karşı ağırlık vb. kombine çözümlerle verimliliği arttırıyoruz.

04 As7Lift FREIGHT ELEVATORS

There is no doubt that As7Lift may offer you the best solutions with mix of comfort and esthetic for those MR, MRL, and Hydraulic freight elevators even for highest load capacities. We do increase our productivity through the solutions like as 4:1 roping or hydraulic+counterweight combinations.

05 As7Lift SERVİS (MONŞARJ) ASANSÖRLERİ

Mesken ve işletmelerinizde eşya taşınması maksadıyla kullanacağınız servis asansörlerinin mekanlarla uyumu çok önemlidir. Giyotin tip veya çarpma tip kat kapılarını kullanabiliyoruz. İhtiyaç halinde kabin iç kapılarımız da mevcut. Tasarımlarımız yerine uygun olarak farklılıklar içerebilir ancak hepsinde can ve eşya güvenliğinizi standarttır.

05 As7Lift DUMBWAITER ELEVATORS

It is significantly essential to install dumbwaiters to be used to carry any stuff that suits with your office/home inner design. The door options include Guillotine, Semi-Automatic and even inner safety door in case of need. The designs may comprise difference compare to any other based on the location, but the attention we pay for safety of your life and your stuff never changes.

06 As7Lift ÖZEL PROJELER

- Yüksek katlı hızlı asansörler,
- Kuyu konstrüksiyonu dahil projeler,
- Cam giydirme cepheli asansörler,
- Kuyu dibi ve üstü yetersiz asansörler,
- Özel amaçlı asansörler,
- Vandal asansörler,
- Size özel tasarlanacak kapı ve kabinler...

Daha fazlası için bizimle iletişime geçiniz!

06 As7Lift CUSTOM PROJECTS

- High Speed and High Rise Elevators,
- Project including hoistway construction,
- Glass Curtain-Walls,
- Solutions for insufficient pit and overhead sizes,
- Custom purpose elevators,
- Vandal Elevators,
- Looking for a custom design car or door?

Please contact with us for more!
